

# News & Notes

from Registry Homes

## SLOW? NOT AT REGISTRY. WE'RE BUSY ADDING NEW PRODUCTS, PROGRAMS AND SERVICES!

■ **For the second year in a row, D Magazine has named Registry® Homes** as a BEST BUILDER IN DALLAS. It's nice to be appreciated for your work. Thanks.

■ **If you're considering doing a home renovation project**, you will be interested to learn that due to popular demand (over a long period of time) we have at last structured a new Registry division that *specializes* in custom renovation work. In addition to makeovers and expansions, we have developed special packages which can greatly increase the energy efficiency and "green" scores for your home (and slash your utility bills). Another unique product we feature can change your backyard into the favorite "room" in your home. Of course, we're talking about one of the greatest investments you can make to your home: A free-standing, roofed "outdoor den" complete with pinon-burning fireplace, mini-kitchen, bar/counter, seating plus dining area and the latest entertainment gear. We have several basic package designs to show you (or we can start a complete custom concept to match you dreams). Either way, a backyard oasis will change your life. For more information call Registry Renovations at 214-679-1511.

■ **Know a St. Mark's family looking for a new home near the school?** Yes? Then write down this address for them: 6225 Pemberton. What they'll find at this location is our latest model family home (ready this summer). It's a very cool design with a wonderfully innovative floor plan. In fact, from this warm English country home's spacious outdoor den, if you listen closely you can hear the sound of tennis racket meeting tennis ball coming from the St. Mark's courts next door. Walking time to the schoolyard: 5-10 seconds (a trip around the hedge). It is available for walk-throughs whenever you have a few minutes.

■ **On the other side of the family curve, do you know anyone looking for the greatest "empty nester" home ever built?** Really. There can't be a better one. Okay, let's just say the very, very best one in Dallas. That is a cinch. Seriously, even if you're not in the market for a new empty nester we'd enjoying having you come take a tour of our latest model empty nester home (ready in late April). Honestly, there's nothing else like it in town. We have resurrected the one-story Ranch and added some terrific new design features. It's located at 5806 Willow Lane (near the Aerobics Center). *See page 9 for a sneak peek at the floorplan.* You may not know it, but Registry is one of a handful of builders which specializes in designing and building smaller, nicer custom homes especially for empty nesters. If you need one (or know someone who does) please give us a call.

■ **We're already green, but we are going much, much greener!** Registry has always selected materials for our new homes which are responsible from an environmental standpoint. But stay tuned, we are currently retooling our processes in order to become one of the greenest custom builders in the country. More details soon.
